## SAUDADE

Inspired by the heritage of Brazilian design from the 1950s to the 1970s, Saudade is Atelier Tortil's first furniture edition and comprises sofas, coffee tables and armchairs distinctive for their strong and refined lines.

Raw yet soft and sensual lines, veined tropical woods such as Jacaranda and Pau-Brasil, patinated metal, rattan canvas, veined marbles have all shaped the making of Brazil's unprecedented design DNA which in turn fed Jean-Pierre Tortil's sensitivity over the ten years he lived there.

Natural fibres, high-gloss lacquer and varnish, aged brass, veined marbles and woods, rattan cane are the noble and traditional materials that make up this edition. It was born out of fine craftsmanship and savoir-faire mixing comfort and sophistication, the very backbone of Saudade.

Saudade finds itself at a crossroads where urbanism meets a tropical world. It captures a bygone moment in life imbued with happiness and nostalgia which has been captured in this elegant, warm and contemporary universe.

S'inspirant de l'héritage du design brésilien des années 1950 à 1970, Saudade est la première édition de mobilier de l'Atelier Tortil comprenant canapés, tables basses, chauffeuses aux lignes fortes et épurées.

Lignes souples, brutes et sensuelles, bois tropicaux veinés, comme le jacaranda ou le Pau-Brasil, métal patiné, cannage en rotin, marbres veinés ont participé à la construction d'une identité décorative sans précédent qui a nourri la sensibilité de Jean-Pierre Tortil durant ses dix années passées au Brésil.

Textiles naturels, laques et vernis brillants, laiton patiné, marbres et bois veinés ou cannage de rotin, sont les matières nobles et authentiques de cette collection née d'un savoir-faire artisanal alliant confort et sophistication, l'essence même de Saudade.

Entre tropicalisme et urbanisme, Saudade raconte un moment de vie délicieux, un souvenir joyeusement nostalgique et compose des univers élégants, chaleureux et contemporains.
